EXPERIENCE

Freelance Frontend Developer   January 2023 - Current
Self Employed
- Engineered scalable, responsive, multi-platform, and SEO friendly websites using HTML5 (+ BEM), CSS3, Javascript ES6 and ReactJS
- Connected to backend API's through Axios CRUD HTTP requests to dynamically represent data with skeleton loading states, pagination, and dynamic routing
- Created & revamped front-end user experiences to fit modern design conventions

Frontend Developer Support   March 2023 - Current
Discord Communities
- Supported students using modern conventions of HTML, CSS, Javascript and React
- Utilized debugging best practices using Google Chrome inspect element tooling
- Simplified challenging programming concepts such as responsive website development, CSS layout, Promises, and API requests

PROJECTS

RecipeBook | **Website** | **GitHub**
- Fetched recipe data from Edamam Recipe API to implement a search system using **HTML, CSS, JavaScript, and React** best practices
- Implemented pagination, fully functional pages, dynamic routing, and responsive/multi-platform support to enable website view on any platform or device

Netflix Clone | **Website** | **GitHub**
- Fetched data from TMDB API to allow users to view trailer and additional information about movies/TV shows using **React, TypeScript, and Tailwind CSS**
- Utilized Firebase for storing user-generated movie lists and handling user authentication
- Implemented CRUD functionality, allowing users to add movies to their own list
- Integrated Stripe checkout for secure payment processing and subscription management

Tesla Clone | **Website** | **GitHub**
- Developed a website clone replicating the style and layout of the official Tesla website using React
- Implemented sign-in functionality using Firebase authentication to provide a secure and personalized user experience
- Utilized Redux for efficient state management, enabling seamless data flow and consistent behavior

EDUCATION

Business Administration - Ontario College Advanced Diploma   January 2020 - December 2021
Seneca College

SKILLS

Proficient: React - HTML5 - CSS3 - Javascript ES6 - Mobile Responsiveness - Animations - NPM/Yarn - Git/Github - REST APIs - UI/UX Design - Firebase - Material-UI

Familiar: Redux, NextJs, Typescript, Tailwind CSS
